Total reading 48hrs. all volunteers	0
Number of readings	1
Total irritation / number of readings	0
Irritation index	0.00
Result	Non irritant

After 48 hours of application, no skin reaction was observed, by the dermatologist on the area treated.
The average irritation index obtained is equal to 0.00.

The samples will be stored by the laboratory during 1 month from the end test date.
The study report and raw data will be stored by the laboratory during 2 years.

Results refer to the sample as received and analysed on the specific period. These results should not be reproduced other than in full and only with the written approval of the laboratory.

DISCUSSION AND CONCLUSION

In the experimental conditions, after a single application of 0.02 ml of the product under semi-occluded patch and during 48 hours, on 20 healthy adult volunteers and according to the scale used for the interpretation of the results, the CERES SPA CERTIFIED POLLUTION CONTROL PEEL OF MASK can be considered as Non irritant regarding its primary skin tolerance.
